Attorney General John Ashcroft  
US Department of Justice  
950 Pennsylvania Avenue, NW  
Washington, DC 20530

Dear Mr. Ashcroft:

I write you concerning the recent Microsoft settlement, and the fact that it may be delayed even further than it already has been. After three years of negotiations, it seems ridiculous to hold back this agreement. Not only was this a well thought out procedure, but it was also well monitored.

Why waste our precious resources fighting a battle that has already been won. The more we delay the process the more we hold back our technology industry. This agreement was made in the interest of all parties involved. Microsoft will share information about the internal workings of Windows, and will be monitored by a government oversight committee. Let us allow the terms to work for themselves, and let our IT sector get back to work.

I urge you to support that no more action be taken against this settlement. We need to get our technology industry back on track, and not hold them up any longer.

Sincerely,

Herman Kling\_
